UKAS Testing Laboratory No: 1187

HFL is a WADA approved laboratory and a world class provider of Nutritional Supplement testing. HFL has pioneered a supplement testing service that is accredited with the UKAS (United Kingdom Accreditation Service) ISO17025 standard.

Quality Assurance:

The screens are intended to assist the nutritional supplement and sports nutrition industries with process and quality control procedures. Ultimately, the screens aim to reassure customers that supplement products are contaminant free and to reduce the incidence of positive drug tests in the sporting arena that arise from accidental contamination of these products.
